

The Joy of Learning to Read

KEEP BOOKS[®] and Libritos Míos[™]

Promote reading and home/school literacy connections.

KEEP BOOKS

- Are designed as a school/home book program that addresses the need for inexpensive but appropriate books in the home (as little as 25 cents per book).
- Create positive communications with parents and caregivers.
- Enhance achievement because children are motivated and encouraged to read at home.
- Were developed and written by educators.
- Are leveled for Guided Reading (Fountas & Pinnell) and Reading Recovery.
- Provide children (pre-K through grade 2) with books to take home to read again and again!

KEEP BOOKS offer a wide variety of high interest titles at reading levels appropriate for pre-kindergarten through grade 2. The format of simple line drawings encourages the child to contribute color and add details to the illustrations. There is a place for the child to write his or her name. Some sets also have a practice page for writing and spelling. Children learn to read and to take care of their books at school. KB boxes are now available for children to use as a special place to organize and store their books either in the classroom or at home.

KEEP BOOKS are 4 1/2 x 5 1/2 or 5 1/2 x 4 1/2. Levels and word counts are indicated on the back cover of each book.
